## *Administration*

For Fifteen years, Bearden High School has been blessed with the undying dedication of William R. Turner, our principal. Truly this man has given to us, the students, the understanding and patience which we so need in completing our high school education. As our attitude of admiration and respect lingers, we will be devoted to Bearden and the one who truly made it the school we know today.

Mr. Kenneth Blades

Our assistant principal, Mr. Kenneth Blades, will long be remembered for his wit and great interest in individual students and their activities. "The worth of a man can be measured by his friends," and it definitely can be said that he has many.

## *Awards Day*

Once a year credit is given to those who have obtained special qualities of greatness during their high school education. It is truly an honor to be pictured among these students.

# Graduation— 1964

The most moving activity of the high school education comes with the closing of the senior year and graduation. For all seniors this is the beginning--the award that follows the many hours of work and studying. It is the opening of doors and making of plans, a time to look to the future--a future that will be the result of time and effort spent in the past. Each class leaves with a spirit of sincere joy and anticipation, as the world awaits.

## A.F.S.

One of the most thrilling experiences a school can participate in is providing a "home" for an A.F.S. student. Every student can receive a special kind of blessing from getting to know someone from a different country and one who is eager to learn about America.

Carlos Valesco has certainly lived up to our expectations of a wonderful person with a challenging opportunity of knowledge for each of us.

Being an outstanding student, it was not hard for Linda McWherter to show her leadership as editor of the Bearden ECHO. With her patience and guidance, she gave many hours of work to the completion of page after page of student activities. This record of our high school year can never be, and it is to the editor that we owe the credit for these lasting memories. Because of her time and effort and concern, our past will go with us into the future.

## *Girls' Chorus*

For many years Bearden High students have had the opportunity of participating in a music program. Mrs. J. Clark Rhodes has made possible the participation in a FINE music program. Her devotion to music and to making music the wonderful communication of ideas which makes it great has been an undeniable inspiration. Her patience, effort, and definite concern for advancement have given unique qualities of understanding music to so many. It is a wonderful experience, to be so closely related to one who cares so much for the one international language of the world. It can then be said that she has done more than teach or direct, for to GIVE music is much more difficult than to make it. She has achieved both.
